Shaping Saskatoon

Growth Plan to Half a Million

North Park & City Park Community Consultation

Wednesday, June 17, 2015 • 7 to 8:30 p.m.
North Park Wilson School (Gym), 1505 9th Ave. N.

Saskatoon is changing. It's how we manage change that is important. This is why the City of Saskatoon is developing a **Growth Plan to Half a Million (Growth Plan)** to help guide future infrastructure investments in areas like Corridor Growth, Transit, Core Area Bridges and Active Transportation, so residents will have more choices for how they live and move around the city as Saskatoon grows.

In March 2015, the preliminary *Growth Plan* was introduced to the public and includes long-term recommendations for:

- a new transit system with Bus Rapid Transit (BRT);
- redevelopment along major corridors like 22nd Street, Idylwyld Drive, 8th Street, College Drive and Preston Avenue; and,
- a new core area river crossing at 33rd Street, combined with BRT lanes on the University Bridge.

While a new core area river crossing may be 20 or more years away, we recognize that discussion of a potential 33rd Street bridge impacts your community.

The City invites residents of North Park and City Park to attend a **Growth Plan Community Consultation on Wednesday, June 17, 2015**, from 7 to 8:30 p.m. at North Park Wilson School (Gym) to learn more, ask questions and get involved in the *Growth Plan* process. A presentation led by City staff will begin at 7:15 p.m., followed by facilitated question and answer.

Further opportunities for input will be offered in Fall 2015 when the final proposed *Growth Plan* and implementation strategy will be confirmed with the public.

For more information on the *Growth Plan*, please visit www.growingfwd.ca.
